

Tablier de Jeux Pattern for FRISETTE

by Sheryl Williams

Included in our Frisette's box of sewing kits are a couple of appealing 1920s-style patterns with sewn garments. The tan linen child's apron titled *Tablier de Jeux* is simple but charming. Here we feature the pattern and the translated instructions for sewing this apron. Every play dolly can use an embroidered apron in her wardrobe.

Materials needed:

- Lightweight linen fabric: 11-inches x 16-inches
- Blue embroidery floss - 1 skein
- Two ¼-inch buttons
- Tracing paper
- Hot Iron Transfer Pencil

1. Fold the linen in half so the folded edge measures 11-inches.
2. Place the two pattern pieces on the fold, pin in place and cut out.
3. Transfer the duck embroidery pattern to the pocket using a hot iron transfer pencil and tissue paper. Refer to *YouTube* for help (*How to Transfer an Embroidery Design onto Fabric — YouTube*). Remember to reverse your design. Iron the transfer paper face down onto your pocket fabric.
4. Embroider the duck using a stem-stitch using two strands of floss. Stem-stitch the edge around the pocket, ¼-inch from raw edge.

5. Press under the curved edge of the pocket at the stem-stitch line so the embroidery is visible on the right side, then turn down the upper edge and narrow hem. Baste and press well. Set aside.
6. Press in an 1/8-inch narrow hem on all edges of the apron and slipstitch.
7. Feather-stitch 1/4-inch from the finished edge using two threads of embroidery floss.
8. Make button holes at the end of each front strap end as indicated on the pattern.
9. Sew two buttons at the ends of the back straps as indicated on the pattern.
10. Place the pocket on the front the apron as indicated on the pattern piece. Appliqué the pocket onto the apron using a small slipstitch around the curved edge, leaving the upper edge open. 🦆
